STEEL STACKS

[steel breeching] [design and engineering] [gunite liners]

access lighting [steel fabrication]

steel fabrication **inspections**

[continuous emissions monitoring systems] [A-36 carbon steel]

[stainless steel] **steel stacks** [steel stacks]

[crane services] [design and engineering]

platforms [aviation lighting] **steel stacks** [crane services]

[concrete chimneys] [steel fabrication] [inspections] [Cor-Ten]

[installation] [dual wall] **ladders** [single wall] **foundations**

[concrete chimneys] [Cor-Ten] **free standing** [steel stacks]

single wall ductwork **guyed**

[specialty structures]

STEEL STACKS

Hoffmann Inc. specializes in the design, fabrication, and erection of steel stacks. Our expertise allows us to design and build a wide variety of configurations for domestic use or export. All of our stacks are engineered to meet ASME standards and offer structural integrity for wind and seismic loads. Delivery and transportation quotes are available upon request.

We are dedicated to a safe and healthy work environment for our employees and customers. Hoffmann's Safety Program is incorporated into our fabrication and construction methods and our employees are routinely trained in OSHA and MSHA regulations.

Capabilities

Design & Engineering
Project Management
Fabrication
Steel Fabricated Components
Installation
Site Erection

Industries Served

Industrial
Commercial
Manufacturing
Municipal
Power and Energy
Renewable Energy
Grain Handling

Features

Single Wall
Dual Wall Insulated
Guyed
Free Standing
Tower Supported
Single Flue
Multi Flue
Insulation and Cladding

Stack Materials

Carbon Steel
Stainless Steel
COR-TEN Steel
Fiberglass

Liner Materials

Carbon Steel
Stainless Steel
COR-TEN Steel
Glassblock
Gunitite
FRP

Coatings

Special preparation and coatings for temperatures up to 1000° F
Steel Grit Blast
Single Part Paint
Epoxies
Zinc

Additional Options

Foundations
Caged Ladders
Platforms
Saf-T Climbs
Test Ports
Lifting Devices
Access Lighting
Helical Strakes
Mass Dampening Systems
Breeching
Silencers
Ductwork
Aviation Lighting
Lightning Protection
CEMS
On-Site Inspections
